MEMORANDUM

TO: Paul Arell, Chief, Superfund Management Section
FROM: Michael McCeney, RPM *MM*
THROUGH: *Laura* Laura Clemmens, Chief, Superfund Remedial Section
SUBJECT: Richardson Flats Toxicologist Assignment

As far as I know, there has yet to be a Toxicologist assigned to the Richardson Flats Tailings Site. In light of the fact that the latest SCAP-2 printouts show FY 91/1 targets and it appears likely that the Site will score on NPL Update 10, I am requesting that you make a Toxicologist Assignment.

I don't expect the Site to become "active" until 91/1, however, so that allocation of your toxicology resources probably will not be necessary until that time.

Thank you for your attention in this matter and I look forward to working with you when things do in fact become active on the Site(s) which I have been tentatively assigned.
